This training discusses the prevalence and consequences of child sexual abuse by educating adults about the steps they can take to prevent, recognize, and react responsibly to child sexual abuse. Stewards of Children is an evidence-informed child sexual abuse prevention, recognition, and intervention training which has been shown to change child-protective behaviors. Throughout this training you will learn, the 5 Steps to protecting our children, what to do if a child discloses to you, increase your awareness of the prevalence and circumstances of child sexual abuse, signs/symptoms of child abuse, risk factors of abuse, consequences of abuse, mandated reporting policies, and much more!

Our goal is to spread awareness and knowledge through this training to Lapeer County in order to recognize, reduce, and prevent child abuse within our Community.
